viewing with
privacy screen
filters from
Kensington.

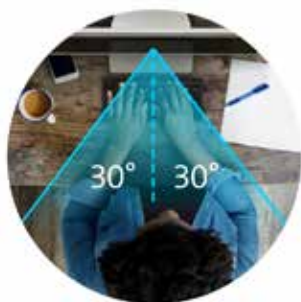

Kensington privacy screens safeguard sensitive information from prying eyes, allowing you to maintain your natural working position whether you're in the office or on the go, all while delivering a seamless combination of innovation, convenience, and professional-grade protection.

Features include:

- Limits viewing angle to +/- 30°, hiding personal or confidential information from anyone trying to look from the side
- Reduces harmful blue light by up to 52%
- Can be installed using the included frameless tab holders or double-sided tape
- Anti-reflective coating reduces glare and improves clarity
- Reversible with matte and glossy viewing options. One side has a matte finish to reduce glare and fingerprints. The other side is glossy and provides a clearer view of the monitor
- Protects the monitor screen from scratches and damage
- Cleaning cloth included
- TAA Compliant
- Compatible with touchscreen monitors

Privacy Screen for Lenovo T34W-20/30/40 (34", 21:9)

SKU: K52173WW | UPC: 0 85896 01161 3 | Lenovo PN: 4Z11U65815

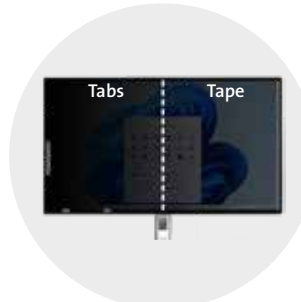

Limited Viewing Angle

Narrows the field of vision on the screen to +/- 30 degrees, helping you keep the information on your screen private and reducing the chances of a visual data breach, which is important both in the office or in a public setting

Blue Light Reduction

Filters out the harmful rays by up to 52%, easing eye strain and reducing the chances of blue light interrupting your natural sleep patterns

Installation Options

The privacy screen can be mounted either with the included frameless tab holders that attach to the edges of your monitor, letting you quickly and easily insert or remove the privacy screen, or you can mount it with double-sided tape that adheres directly to the screen for a cleaner look

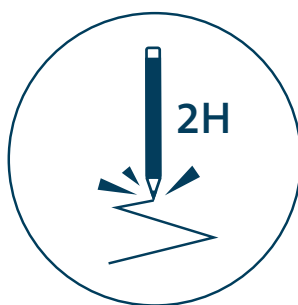

Anti-Reflective Coating

Reduces glare from any outside light sources that can interfere with your viewing clarity

Reversible Viewing

One side has a matte finish to reduce glare and fingerprints. The other side is glossy and provides a clearer view of the monitor. The anti-glare/matte surface uses a special antimicrobial film coating that prevents mildew and bacteria growth, which can cause stains and odors on the film.

Scratch Resistant

A resilient, scratch-resistant surface* that can withstand contact with something as hard as a 2H-grade lead pencil, ensuring increased durability and protection.

Touchscreen Compatible

Our privacy screen filters work with laptops and monitors with touchscreen functionality.

ISO/IEC 27001 Annex A Controls

Using this product can help mitigate the risk to your organization in terms of confidentiality, integrity and availability of data and can help meet Annex A 7.7 and 8.11 controls
