

Protect your data & devices with ease.

Lenovo Privacy Filters deliver a premium visual experience while allowing end users to feel secure working from anywhere. Proprietary technology enables 85% light transmittance, providing a clear screen-viewing experience while keeping the screen hidden from others. A 30-degree viewing range can effectively prevent information and data from being viewed by anyone other than the laptop's user.

Complete your IT Security Plan

PROTECT YOUR SCREENS AND KEEP VISUAL HACKERS IN THE DARK

- Help protect all your screens, and the information on them with Lenovo Privacy Filters
- Lenovo Privacy Filters fade to black starting at 30° angle of view
- Filters provide effective, “black out” privacy from side views outside the 60° viewing angle

Catalog

The cost of a lost or stolen company device goes far beyond the value of the hardware alone. The consequences of equipment being acquired by a malicious third-party could cost a company their reputation, intellectual property, and millions of dollars in fines and data loss.

Lenovo's Computer Locks provide a simple solution to a complex problem by physically fastening devices in place with ultra-tough cable locks, so that nobody can tamper with or steal your device when you're away from your desk.
